Open to relocate · hybrid · remote-friendly

OD & Talent Specialist with 4+ years driving talent management, organizational development, employee engagement, and learning across manufacturing, energy, and corporate environments. Partners with business leaders on people strategies that support growth, capability, and retention — currently deepening Digital HR & AI-driven analytics at XLRI Jamshedpur.

EXPERIENCE

OD & Talent Specialist

Sep 2026 – Present

Indian Oil Adani Gas Pvt. Ltd.

- Drive organizational development initiatives — org design, role clarity, and capability mapping aligned to business growth plans.
- Own the talent management cycle: identification, review, and succession planning for critical and leadership roles.
- Partner with business leaders to translate workforce and talent gaps into structured development and hiring plans.
- Design and roll out learning and capability-building programs that strengthen bench strength across functions.
- Track talent and OD metrics — attrition, internal mobility, and development outcomes — to inform people decisions.
- Support performance management, employee engagement, and change management through organizational transitions.

Manager – Human Resources Business Partner

Jul 2022 – Sep 2026

Escorts Kubota Limited

- Partnered with business leaders on engagement, workforce planning, performance management, and talent development.
- Designed and delivered learning interventions aligned to business capability needs.
- Managed employee lifecycle — onboarding, engagement, performance reviews, and employee support.
- Supported DEI, policy implementation, compliance, and organizational effectiveness.
- Enabled cultural integration and change management during transformation programs.
- Used LMS platforms and workforce analytics to track learning effectiveness and development outcomes.
